

### Stop The Violence Pledge

To my community, family, and friends. I accept that I play a part and have a responsibility to contribute to making this world a better place.

#### THAT MEANS

I pledge to be the best person and citizen that I can be. I will live to bring peace and not violence. I will not harm my male and female neighbors/community but will handle them with the same care that I would give to my own family, friends, and loved ones.

I pledge to honor my leaders of the present and past that have sacrificed their lives for my benefit and greater opportunities.

I pledge to use these opportunities to achieve success in my chosen career. No matter the job choice, I will apply all my skills to be a leader and positive force in this world and my community. This world will definitely be a better place simply because I am in it!

I pledge to be a role model to the younger generation by striving to be someone they can admire and follow.

I pledge support to my peers and try to stop their self-destruction by helping them to make better decisions.

I pledge to develop myself and mature to be the best parent, child, sibling, relative, and neighbor that I can be. I recognize that these principles will help change my community and Stop the Violence towards one another.

I pledge to not be a menace to society but a positive **CHANGE AGENT!**
